Comprehensive commercial data

EvaluatePharma is your most comprehensive source of commercial information on the past, present and future of the industry. It covers every commercially relevant marketed product, and all disclosed clinical development products, supported by the largest back catalogue of consensus drug forecasts.

Rapidly unlock market insights

Dynamic summary pages and powerful, interactive dashboards enable you to quickly explore and assess pharmaceutical markets and their underlying dynamics, transforming complex data into actionable insights.

Trust through transparency

EvaluatePharma data is trusted by the industry, including all of the top 25 global pharma companies, for high value decisions and external analyst presentations. Our team of experts put the data through a rigorous quality assurance process, backed up by our transparent proprietary methodologies, so you always have confidence in the results.

Consensus Forecasts to 2026

Our deep industry knowledge and analytical expertise allow us to create the highest quality consensus forecasts so you can benchmark strategic decisions with confidence.

- Industry-leading broker coverage
- Historical and forecast sales broken down by indication
- Understand the dynamics of each market

Deals

We offer comprehensive coverage of M&A, licensing, venture financing and IPO deals in the pharmaceutical and biotech space.

- Track and benchmark deals by product classification (phase of development, therapy area, technology and phase of compounds)
- Review deal values, upfront payments, royalties and co-promotions
- Evaluate any company's M&A record and follow product progress after acquisition

Archive Sales Forecasts

We have the largest back catalogue of consensus drug forecasts, including a monthly archive of Evaluate's Consensus Forecasts so you can see changes versus the current forecast.

- Contains 485,000 forecasts covering 11,000+ drugs since January 2003
- Provides unique insights into equity analysts' changing sales expectations through a drug's life cycle
- Monitor a drug's progression with real-world information and understand changes in forecast commercial potential

Company Financials

Our extensive company-level financial information – both historical and forecast – identifies the leading companies in the industry in terms of their revenues and profits, covering:

- Profit and loss (reported and normalized)
- Balance sheet and cash flow information
- Product and therapy area sales
- Portfolio performance

R&D Pipeline and Portfolio Analysis

We cover R&D pipeline information at each stage of the process, from research and development to filed and approved.

- Build customized views of the development landscape
- Cut data by phase, indication, therapy area, mechanism of action, company and technology
- See regulatory approvals history across USA, EU, Japan and Brazil, plus key patent expiration dates

Event Analyzer

Our Event Analyzer reveals the news events that affect pharmaceutical and biotech company share prices and valuations.

- Curated by event type, including clinical trial results, regulatory decisions, competitor announcements, financial results, patent litigation and broker sentiment
- Share price and market capitalization change calculated for each event
- Daily and weekly round-ups of stock price winners and losers

Streamline your research process with rapid market insights

Our interactive suite of tailored dashboards deliver an intuitive and visual solution for answering key market questions

Market Landscape

Uncover insights about the market and drill-down into each indication for a deeper understanding of global sales, market share, mechanism of action and more.

Market Dynamics

Understand the underlying dynamics influencing the market value and quickly identify the market leaders, disruptors and significant growth drivers and brakes.

Portfolio Analyzer

Compare company portfolios by indication or technology to determine strengths and weaknesses. Or combine them to identify possible M&A opportunities through hybrid portfolios.
